

CHARTS(pie,line,bar)

PIE CHART :

1. Include js file for line chart and .js file you created in html

```
-> <script type="text/javascript"
src="https://www.gstatic.com/charts/loader.js"></script>
<script
src="https://cdn.anychart.com/releases/v8/js/anychart-core.min.js"></scrip
t>
<script
src="https://cdn.anychart.com/releases/v8/js/anychart-cartesian.min.js"></
script>
<script src="/home/tacto/Downloads/line.js"></script>
```

2.Now on your html page use element to display chart you can use span,div

E.g

```
-> <div id="container2" style="width: 50%; height: 30%"></div>
```

3. In your .Js file write the following code:

```
anychart.onDocumentReady(function() {
google.charts.load('current', {'packages':['corechart']});
google.charts.setOnLoadCallback(drawChart);

function drawChart() {
```

```
var data = google.visualization.arrayToDataTable([
  ['Subject', 'Marks'],
  ['English', 12],
  ['Hindi', 17],
  ['Marathi', 18],
  ['Physics', 10],
  ['Chemistry', 17],
  ['Biology', 16]
]);

var options = {
  title: '',
  curveType: 'function',
  legend: { position: 'bottom' },
  min: 0,
  max: 100
};

var chart = new
google.visualization.LineChart(document.getElementById('container2'));

chart.draw(data, options);
}
})
```
